A NEW SOX & MARTIN 'CUDA!

SOX & MARTIN, MODERN MUSCLE TEAM UP

Admit it—you've long dreamed of owning a genuine, ground-pounding, Sox & Martin Hemi 'Cuda.

Stop dreaming already. Thanks to Diane Sox and Buddy Martin (of the legendary Sox & Martin drag racing team) and Modern Muscle's Mike Staveski, you now can score one of your own. They've teamed up to bring you the Collector's Series 2010 Sox & Martin 426 Hemi 'Cuda.

Unveiled at the Mopar Nationals in 2009, and inspired by the Sox & Martin Hemi 'Cuda that won NHRA's 1971 Pro Stock title, the Collector's Series Sox & Martin 426 Hemi 'Cudas are serious performance vehicles based on the LY-Body Challenger SRT8.

Each one is available in your choice of three performance levels, with a balanced and blueprinted supercharged 426 Hemi filled with a forged crank, rods, and pistons designed to work in concert with the twin screw supercharger, plus a comprehensive array of performance parts and accessories.

There's the Sox & Martin 426 Hemi 'Cuda Edition with 625 horsepower; and the Super Stock Edition with 725 horsepower. If they aren't enough, there's the Pro Stock Edition, which includes a 900+ horsepower engine, Dana 60 rear end, and four-link rear suspension.

If you like the red/white/blue color scheme that Ronnie and Buddy made famous at strips from coast to coast, you're in luck. That's because they'll all wear the same colors and period-correct Sox & Martin graphics as the original.

Other features include 'Cuda-style rear quarters, a modern version of the 1971 'Cuda grille and tail panel, and an aggressive hoodscoop like the one on their first Pro Stocker. Inside, there's custom leather seating with the Sox & Martin Supercars shield embroidered on the seat backs.

Each Sox & Martin 426 Hemi 'Cuda is personally signed by Buddy Martin, and has a special fender tag identifying its equipment and Sox & Martin serial number.

Production for the Collector's Series Sox & Martin 426 Hemi 'Cuda is limited. Unless you want to wind up like that grouchy guy from the Delaware Valley, you won't want to miss out—so call Modern Muscle today at 727/869-9533 for more info.

A BIG THANK YOU

Well, the drawing is over, and the 426 Hemi, built with the help of many has been won by Rick Derheim of North Dakota. With the generous nature of all of the manufacturers and friends that donated items to be raffled, The Ronnie Sox Foundation was able to present the St. Jude's Children Research center with a check for $80,000 dollars. Without the help of the sponsors and especially you guys and gals that bought tickets, this would not have been possible. We at *Mopar Muscle* magazine send a big thank you to all of you. Speaking of sponsors, there were more prizes than just the engine, and the following is a list of the prizes, and the winner. If you haven't claimed your winning ticket yet, contact Diane through her web site, www.ronniesox.com.
